ACKNOWLEDGEMENT OF COUNTRY

We pay our respects to the traditional owners of the land, both past and present, and to the young people who will be leaders in the future. It is a privilege to be living on Noongar country.

We recognise the Noongar people as part of the oldest living culture on earth and as the custodians of this land.

Our traditional elders and spiritual leaders know their land (boodjar) and the religious sites, myths and rituals that have been handed down for thousands of years. This knowledge is priceless because it comes from the old people from (kwidja) long time.

Every Noongar person born in this area belongs to one of two family groups and is represented either by the White Cockatoo (mantjimat) monarch spirit totem or the Crow (wardang) totem.

Being Noongar is being part of a family, sharing with others all the things we believe in. We feel these things very deeply, they join us together and our old people. Our spirits are in these trees and hills and the rocks and waterways, and in the goannas and the birds and the animals.

The Shire of Donnybrook Balingup

VISION: *A proud community enjoying our rural lifestyle, cultural heritage, and natural environment.*

The Council Plan (2022-2032) outlines our priorities as **our People**, **the Place**, **the Planet**, **Prosperity**, and our Performance. We are committed to achieving goals and completing projects that support these five areas.

We are fortunate to have such a rich culture and heritage in our Shire, renowned for its gorgeous landscapes, old-growth forests, bountiful orchards and vineyards, and as an iconic agricultural area.

Our purpose is simple: to foster joy and wellbeing in our beloved community, and bring our Vision to life.

Agenda Briefing Sessions (ABS)

An ABS is typically held in the third week of every month at the Shire of Donnybrook Balingup Council Chambers, found at 1 Bentley Street in Donnybrook. These sessions are both open for the public to attend and livestreamed via our YouTube channel, however there is no public participation permitted. They were not required during 2023 during the tenure of previous Commissioner Gail McGowan, however with the election of a new Council we have returned to conducting monthly sessions.

Ordinary Council Meetings (OCM)

OCMs are typically held the week after an ABS (except for December, which will be held a week in advance to the standard schedule due to holiday hours and availability). OCMs are held in the Council Chambers as well, unless otherwise stated, and like an ABS are both open for the public to attend and livestreamed. OCMs allow for Public Question Time, as outlined on this page.

Public Question Time

If you wish to ask a question to Council, you can do so during Public Question Time at the start of an OCM. Each member of the public with a question is entitled to ask up to two questions at a time. If a question is unable to be answered at the meeting, it may be taken on notice by the Council for a later response.

Deputations & Petitions

A person or group that wishes to make a deputation to Council is to apply to the Chief Executive Officer in writing prior to the meeting for approval, or request the Presiding Member's approval at the appropriate meeting. Further information on the above points, as well as the meeting calendar, is publicly available on our website. Should you have any enquiries on these processes, or about making a submission, please reach out to the Shire so that we may assist you.

Please be advised there are no Ordinary Council Meetings or Agenda Briefing Sessions in January.

Works & Services, Animals, and Waste

Environmental Management & Natural Resources

Our Environmental Officer manages the natural biodiversity of the Shire through weed and pest control programs, as well as the rehabilitation of local waterways and river ecosystems.

Additionally, our Environmental Officer provides support to local community groups, assesses land use, and oversees strategic planning for environmental sustainability.

Animals, Pets, and the Rangers

The Rangers are responsible for implementing high quality compliance and enforcement for the benefit of the community. Some of the areas Rangers cover include animal control, litter, and vehicle control.

A key part of being a responsible pet owner is knowing when your dog/cat registrations are due, which is every year on 1 November. All dogs must be microchipped and registered (rates vary depending on if the dog is sterilised), and all cats over the age of 6 months must be microchipped, registered, and sterilised. All fees, charges, and local laws are available online on the Shire's website.

General Maintenance & Works

Our Works & Services department cover:

- Roads
- Verges
- Parks & gardens
- Footpaths
- Car parks
- Public amenities
- Bridges
- Sporting ovals

Any requests or reports about the above can be made directly to the Shire online, over the phone, or in person.

The Officers in the Works & Services department can also assist you with crossover approvals, RAV approvals, and environmental management. Call us today to discuss.

Rates

Rates are issued each year, with the billing period being 1 July to 30 June the following year. Should your postal address change, or there is a change in ownership of your property, please notify the Shire as soon as possible so that our records are updated and kept accurate. Visit our Rates page on our website to learn more.

Local Planning

Our Planning Team strives to plan for sustainable growth into the future through sensible land use controls. The Officers administer the Shire's Local Planning Scheme (LPS), which specifies zoning for all land in the Shire. This determines the types of development and uses that can be considered on various land. These zonings can be found within a range of scheme maps that are accessible on the Shire's website.

When considering development, Officers consider the broader planning framework encompassing all Local and State Planning Policies. Some other relevant matters that are considered include identifying if a place has State or Local heritage importance, if the area is bushfire prone, or if the area of proposed development has environmental impacts.

Depending on the zoning of the land and framework, your development may require Development (Planning) Approval. For further information, please contact the Shire's Planning Team directly. Resources are also available on the Shire's website.

Building

- Residential dwelling/granny flat alterations/additions; and
- Sheds/gardens/workshops; and
- Patios/verandahs/gazebos/ pergolas ; and
- Swimming pools & spas ; and
- Retaining walls ; and
- Commercial buildings (includes fit-outs and/or refurbishments); and
- Industrial Buildings.

Application forms and guides on Building can be found on the Shire website, or you can contact us during office hours. Alternatively, you can email your enquiries and applications to buildinglodgements@donnybrook.wa.gov.au.

NEW MEMBERS ALWAYS WELCOME

Are you looking for a challenge, wanting to meet new people, learn new skills or help out in your community?

SES is focused on ensuring that Western Australian communities can cope with emergencies. It has the lead role in managing the States actions for floods, cyclones, storms and earthquakes as well as assisting other agencies in their roles.

The volunteer units undertake regular training, including rescue skills, first aid & casualty handling, map reading & navigation, communications, operations, leadership & specialised skills.

Roles include:

- Cyclone & flood response
- Cliff/cave rescue
- Road accidents rescue (in special areas)
- Air search observation
- Land search and rescue
- Fire Support
- Storm damage relief
- Communications
- Management of the emergency co-ordination centre using computer systems

STORM DAMAGE GUIDE

- Prepare your home – Stay storm safe.
- Check and repair your roof and guttering.
- Clean gutters and downpipes of leaf litter.
- Trim branches clear of your home and get a professional contractor to clear trees from powerlines. Clear your yard of loose objects that could cause damage during high winds
- Have a torch and radio with spare batteries available in case of power cuts.
- Plastic bags and sheeting are useful to keep possessions dry in case of storm damage to your home or property
- Keep an emergency contact card with 24 hour numbers: SES, Bureau of Meteorology (BoM), Western Power, Water Corporation, Insurance

The SES only provide **EMERGENCY ASSISTANCE**. It is the responsibility of the property owner to arrange all household repairs following storm damage. Contact your insurance company or licensed tradesperson.

DURING THE STORM *Stay Storm Safe*

- Stay inside away from windows, close curtains.
- Turn off electrical appliances and avoid using landline phones – it is safe to use mobile phones during a storm.
- Ensure your pets and animals are secure.
- Listen to your radio for storm warning updates.
- If you're caught outside, seek shelter in a vehicle or building – never shelter under trees.
- If caught in a storm while driving, pull over and park until the storm passes. Stay clear of trees, power lines, storm water drains/streams.

AFTER THE STORM *Stay Storm Safe*

- Check your home/property for storm damage.
- Listen to BoM weather updates for further storm warnings and reports of damage and disruption to services.
- If you need emergency assistance consult your emergency contact card.
- If you don't have any damage, help friends or neighbours who need assistance.
- Beware of fallen power lines, damaged buildings and fallen or damaged trees.
- Keep children away from flooded waterways.
- Motorists shouldn't try to drive into water of unknown depth and current.
- Remember to return tarps to your local SES Unit after you have effected repairs to your house etc.

The SES volunteers respond to calls to remove fallen trees from homes, fix tarpaulins to damaged roofs or carry out life saving operations. They give up their own personal time, often braving drenching rain and howling winds, to help the community.

Always remember that it is **VOLUNTEERS** who respond to calls for assistance. If you require emergency assistance during or after a severe storm remember to assess the extent of the damage to your home to determine the level of assistance required from the guide below.

To contact the police, fire or ambulance in an emergency, call Triple Zero (000) from any telephone in Australia. Calls are free.

BE SAFE AND LEAVE EARLY PLAN

1 WHEN will we leave?

Waiting to see flames before you evacuate is too late. There is only a limited number of fire trucks, so you cannot depend on one being there to defend you and your family. You have to make your own decisions.

2 WHERE will we go?

Choose a safe place, like the home of a family member or friends that live away from the fire zone.

3 WHO will we call?

Make sure you call someone when you are leaving and when you get to your location, so they know you are safe.

4 WHICH way will we go?

ROUTE 1:

ROUTE 2:

ROUTE 3:

Fires can come from any direction and paths can quickly become blocked. Choose more than one route to your safe place. If you don't have more than one route, pick another safe place.

5 WHAT will we take?

Make a list of key items to take with you. Don't forget to consider your pets.

6 What is our **BACKUP PLAN** if things don't go the way we planned?

Things don't always go to plan in an emergency. Most fires start in the afternoon. Think about what you'll do if: we're at work? Our pets run away? The children are home alone? I'm at home alone? The children are at school? We have guests over?

7 IF WE CAN'T LEAVE OUR PROPERTY where can we shelter safely?

Think about the best place to seek shelter, such as a room that has an internal and external exit like a laundry or an area outside that has already been burnt such as a paddock.

BE PREPARED TO STAY AND DEFEND PLAN

1 MANY HOURS BEFORE THE FIRE FRONT ARRIVES

INSIDE

- Relocate other family members especially children and older people
- Turn air conditioner off but leave water running through the system if possible
- Fill all containers/basins with water - check all water supplies
- Find woollen blankets for protection against radiant heat
- Soak towels and rugs in water and lay alongside the inside of external doorways
- Take down curtains and move furniture away from windows
- Place ladder and torch close to manhole to check ceiling for embers

OUTSIDE

- Bring any loose burnable material inside
- Wet down side of house and garden that faces the fire front
- Block downpipes and fill gutters with water
- Regularly patrol around the home for spot fires
- Turn off gas supply

I understand fully what is required and still want to stay

2 AS THE FRONT APPROACHES AND DURING THE FIRE

- Bring all hoses, hose fittings (including plastic tap attachments) and all equipment inside
- Move everyone into the house when you see flames or it becomes too hot
- Frequently check the roof cavity for spot fires
- Stay inside the house until the front passes - usually 10 to 15 minutes
- Have access to drinking water to stay hydrated

I understand fully what is required and still want to stay

3 AFTER THE FRONT HAS PASSED

- When it is safe, check inside and outside for spot fires, including all cavities and gaps
- Patrol your house for several hours checking for small fires and burning embers - embers can travel many kilometres
- DO NOT leave immediately after the front has passed - it can be extremely dangerous
- Listen to the radio or check with local police for when it is safe to leave

I understand fully what is required and still want to stay

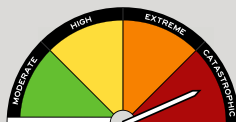

4 DON'T WAIT AND SEE!

Waiting to see flames before acting is too late. You must be aware of warning systems and put your plan into action early. And with only a limited number of fire trucks, you cannot depend on one being there to defend you and your family. You need to make your own decisions.

 **5 WHEN** will we put our plan into action?

6 IF WE'RE TRAPPED

where can we shelter safely? The best place to seek shelter is a room/area with two entry/exit points, like a laundry.

IF THERE IS A CATASTROPHIC DANGER RATING THE ONLY OPTION IS TO LEAVE.

PREPARING YOUR EMERGENCY KIT
